Richmond, Va., January 3, 1914.
The following are the quotations on the Richmond Hay Association:

CATTLE MARKETS.

Chicago, Iil., January 9.—Hogs—Market un-settled, closed weak. Bulk of sales, \$5.20@ 5.20. Cattle—Steady. Beeves, \$6.70@9.40. Cows and helfers, \$3.50@5.40; calves, \$7.50@12.00. Sheep and Lambs—Market steady. Sheep, \$4.90@6.20; lambs, \$6.85@8.35.

New York, January 9.—Beeves-Market irregular. Steers, \$669.15; bulls, \$5.82567.50; ows, \$8.7565.50. Calves-Market steady at \$9613.50. Sheep and lambs-Market steady. Sheep, \$3.7565.75; lambs, \$7698.76. Hogs-Market steady at \$8.5568.80.

PETERSBURG PEANUT MARKET.
(Reported by Rodgers, Plummer & Co., Inc.).
Petersburg, Va., January 9.—Peanuts.—
Spanish-Farmers' Spanish firm at \$1.25 buts.—
el. V!rginias—Fancy jumbo. 34:34c. per pound; fancy handpicked. 34c. per pound; extra prime. 34c. per pound; prime, 3c. per pound; shelling stock, 263c. per pound.

DRY GOODS MARKET. New York, January 2.—Cotton goods mar-kets were firmer in the gray goods division to-day and more active sales were reported at slightly increased prices. Millinery job-

.. New York .. Stock Market

LITTLE COMFORT FOR BULL OR BEAR

Confidence in Stock Market. However, Not Injured by Prices.

DECLINES ARE UNIMPORTANT

Public Seems Indifferent to Present Fluctuations or Prospective Values.

BY BROADAN WALL.

New York, January 9.—There was little comfort for bull or bear, and no profit for the trader in to-day's stock market. The filing of a suit by preferred stock-iolders of thion Pacific after the close on Vednesday was a "poison needle" story that uspended speculative animation. Confi-cincs however, has not been moured, judg-

ience however, has not been injured, and ing by prices.
Leading issuers gained fractionally, and declines were unimportant. Unfavorable news is apparently without effect. Reports from the copper trade indicate almost complete stagnation, buyers showing no anxiety to enter bids at prices that in some cases are quated hearly a half cent below recent figures for the metal.

Comper for Comper soid up to 72. Balti-

enter bids at prices that in some cases we quoted nearly a half cent below recont figures for the metal.

Amalgamated Copper sold up to 72. Baltimore and Ohlo rose a point on short covering. Fears were expressed that litigation may defer distribution of Union Pacific's holdings for many menths. The quarterly dividend recently deciared on Baltimore and Ohlo will be deducted at the end of the current month. Union Pacific gained slightly; the undertone in this stock is distinctly firm. Heading exceeded any other issue in point of activity, and while the shares were never weak, quotations were shaded at the close. Petroleum black fractionally, Missouri Pacific notes advanced sharply and sympathetically, Missouri Pacific rose from 24½ to 26%. Wabash stocks were fractionally higher on strength in Wabash refunding 4s, which rose to 55%. New York Central developed decided weakness, selling at 18½. The outlook of this stock is unpromising. Southern Kallway issues advanced smartly, the common selling at 14½ and the preferred 11%. Of all sections in the country, the Southeast is the most prosperous to-day from the standpoint of transportation.

Foreign markets failed to show the slightest interest in American rails, and arbitrage dealers had the smallest day's business in many weeks. Less than 4,000 shares changed hands between the international banks.

Pronounced ease in the money market has broadened the demand for bonds. Dealings to-day exceeded 53,000,000 with a wider range of trading and a general etiffening of bids. United States Steel as sold up to 101, Atlantic Coast Line, Louisville and Nashville 4s rose from 9 to 91. American Telegraph and Telephone convertibles gained fractionally. Bond brokers report difficulty in finding offerings of the high-gaide investment issues, although bids have laver asset steadily since the turn of the Fear.

Surplus funds are rapidly accumulating at this centre. Call loans renewed at 2½ and the county by the control to the fear.

international banks.

The close was a few points off from the best market and first price were from 2234 points of hids. United states Steel is sold up to 101, ville & rose from 20 to 21, American Telegraph and Telephone convertibles gained fractionally. Bond brokers report difficulty in finding offerings of the high-grade investigation of the convertible states of the high-grade investigation of the convertible states and the convertible states are applied to the convertible states of the high-grade investigation of the convertible states are applied to the

New York, January 9—Movements of the leading stocks to-day were held within a narrow limit. At the outset prices eased off moderately, but bear traders encountered buying orders when they attempted to depress further, and the market improved. For a time the range was slightly above yesterony's close, but a late selling movement sealed down quotations. Changes on the day were small and irregular.

A few stocks broke away from the remainder of the list and moved more widely. Shares of the Southern and Southwestern milronds and of the fertilizer companies were influenced favorably by the cotton gian in the early market. Missouri Pacific moved upward in the early market. Missouri Pacific moved upward in the early market. Missouri Pacific moved upward vance was associated with the showing of pronounced strength made by the company's short-term notes. Tobacce stocks made large gains. New York Central was heavy all through the day, although pressure against this stock apparently was due to short selling rather than to liquidation. The quotation dropped to \$8\frac{1}{2}\$, the lowest figure and the continent \$2.25\$ bales; capport to Great Britain, \$2.50\$ bales; to the Continent, \$2.25\$ bales; export to Great Britain, \$2.50\$ bales; to the Continent, \$2.25\$ bales; to t all through the day although pressure spany against this stock apparently was due to short selling rather than to liquidation. The quotation dropped to \$92, the lowest figure. An outline of aftirustabilis to be placed before Congress appeared shortly before the congress appeared to the continent, 2,332,253 bales; to the Continent, 23,225 bales; to the consolidated at all ports—Net bales; to France, 23,437 bales; to the Continent, 23,7437 bales; to the continent control of the continent, 23,725 bales; to Mexico, 27,855 bales; to France, 2,4457 bales; to France, 2,4457 bales; to France, 23,437 bales; to the Continent, 23,725 bales; to Trance, 2,3437 bales; to Trance, 2,3457 bales; to Trance, 2,3457

COTTON MARKETS.

New York, January 2.—There was an excited advance in the cotton market to-day, with active months selling fully ½c. above the recent low level on heavy general buying, which appeared to be inspired by a bullish view of the census ginning figures, reports of firmer Southern spot markets and continued talk of a better export demand. The close was a few points off from the best under realizing, but the undertone was stoady and last prices were from 22#34 points net higher.

crop. In addition to realizing, however, there was some selling on the advance by local traders	1

will be heid in the office of the company, the company of the standard of the company for the character of the company for the chara of 700 pounds an acre, and made the highest-priced tobacco of the season. But on land in your section and compute to abandon an occupation that is enabling you to make a support for your family, and undertake to buy and run a farm with

lead-lined tanks, and the buying of the rock and acid on smaller scale would make the article cost you more than you can buy a better made product. There are certain things that require special apparatus and skill in the workman, and can only be done profitable analysis, the material will contain about two ounces of nitrogen, one inevitably make an inferior product and a more costly one. The farmer certainly needs to learn that he can mix his own materials as well as the factory, but he cannot prepare the raw materials on a small scale as well or as cheaply as the commercial factory. Trouble With Sweet Potatoes. "I would like you to tell me what

is the matter with my sweet potatoes.
When I dug them about the first of
November I had as nice a lot as any one could desire. I was told that I could not keep them here; but I thought better, and now they are all black inside, and have the appearance of being frosted. They were grown on rather poor sandy loam, and I used one Cashier.

NOTICE ANNUAL MEETING.

THE SHAREHOLDERS OF THIS bank will hold the annual election of directors and consider such other business as can properly come before them, at their banking house, on Tuesday, January 13, 1914, at 12 M. THE AMERICAN NATIONAL BANK OF RICHMOND, VA.

O. B. HILL. Cashier.

Virginia Trust Company. Virginia Trust Company,
Richmond, Va., Dec. 31, 1913.
THE ANNUAL MEETING OF THE stockholders of this company will be held at the office of the company, in the city of Richmond, Va., on TUES-DAY, JANUARY 20, at 12 o'clock noon.

Well, doubtless the potatoes were be remedled?"
Well, doubtless the potatoes were

chilled or frosted from what you say as to the treatment. You left them in the first place, too late in the ground. Then you handled them in sacks that would inevitably bruise them, and left them several days in a cold barn, and then put them in a cool place. In fact, your whole treatment was such that they could not otherwise than spoil Sweet potatoes are a tender product, and should be taken from the ground Merchants National Bank,
Richmond, Va.

THE ANNUAL MEETING OF THE stockholders of this bank will be held in its banking house TUESDAY,
January 13, 1914, at 12 noon, for the transaction of any business that may properly come before the meeting.

Permanent Pasture.

"I live in Eastern North Carolina, near the Atlantic Coast Line Railroad. Do you think that Bermuda would make the best permanent pasture here? If so, when should the seed be sown,

Saturday, January 10, 1914.

Irrigating Land.

"How many gallons of water does it require to irrigate an acre of land? What are the best methods for irrigating? I have a stream flowing through the farm about 4,000 gallons a minute. By carrying it 600 to 1,000 feet, I could have an elevation of 100 feet, and if water sufficed, could irrigate, and if water sufficed, could irrigate the wenty-five of the hill. Will it pay to tile, drain and irrigate through date therewell desired and irrigate and irrigate and irrigate and irrigate and irrigate at throwell drain.

and irrigate Land.

I have often referred to the fact that Bormuda is an excellent pasture grass will he put cattle on it?" I have often referred to the fact that Bormuda is an excellent pasture grass warm weather grass, and should not be planted till late April. You can get plenty of the running stems, commonly called roots, and you can get a stand of the grass more quickly with these often referred to the fact that Bormuda is an excellent pasture grass, and should not be planted till late April. You can get that the plenty of the running stems, commonly called roots, and you can get a stand of the grass more quickly with these other warm about 4,000 gallons a wirring in shallow furrows about two feet apart and throw a small furrow over the rows. Then sow twenty pounds, of orchard grass an acre, and brush all over with a smoothing harrow. The orchard grass will help very much, as it will keep green in the winter after the Bermuda has browned. Then maintain the growth by topdressing with bone meal every spring.

Chrysanthemums.

W. M. GILMORE, Secretary.

Highest-priced tobacco of the season. But on land in your section and comparatively fresh soil, I would not use over 500 pounds an acre.

No, you cannot profitably make your own acid phosphate. To get ready for making it would cost a good deal in lead-lined tanks, and the buying of the rock and acid on smaller scale would

W. M. GILMORE, Secretary.

about two ounces of nitrogen, one ounce of phosphoric acid and two ounces of potash in 100 pounds, or less than so much pine bark. It will, of course, add some vegetable decay or humus-making material to the soil, but for its fertilizing value 4 cents is a good price. Applied as it is, it would make some acidity in the soil, and make some actuity in the soil, and what little plant food it contains would be a good while coming into availability. In fact, if you have to haul it any distance, it is hardly worth the loading. Put in a heap and mixed with some lime during the winter it may get in better shape for the spring, but you had better haul pine straw or oak leaves as a fertilizer.

FOR SALE.
